## Kebony RASK fixing system

### Product description

The Kebony RASK fixing system is designed for hidden and quick installation of Kebony Clear decking boards with side slits. Compatible with wood substructure and aluminum substructure. The system gives a uniform 8 mm gap between boards at installation time, and a 6 mm spacing between the boards and the substructure. This provides extended durability of the construction by improving ventilation and reducing risk of water and dirt accumulation.

98 % recycled material.

### Advantages

- Hidden fastening solution
- Even board spacing
- Replacement of individual boards is possible
- Improved ventilation
- Reduces moisture
- Weather-resistant
- Recycled material

Item no	Description		Package content
2748	<p><b>Kebony RASK clip for wood substructure</b> Hidden installation for Kebony Clear deckingboards with side slits on wooden substructure.</p> <p>Glass fiber reinforced polyamide clip with stainless steel clamping plate. Includes stainless steel screws A4 black 4.2 x 50 mm.</p> <p>App. coverage at 50 cm beam spacing (c/c) 14 clips per m<sup>2</sup> 9 m<sup>2</sup> per pack (125 pcs)</p>		125 clips with clamping plate. 125 A4 screws for wood 1 spacer, 8 mm. 1 bit T15
2749	<p><b>Kebony RASK clip for aluminum substructure</b> Hidden installation for Kebony Clear deckingboards with side slits on aluminum substructure*.</p> <p>Glass fiber reinforced polyamide clip with stainless steel clamping plate. Includes stainless steel screws A4 black 4.2 x 33 mm.</p> <p>App. coverage at 50 cm beam spacing (c/c) 14 clips per m<sup>2</sup> 9 m<sup>2</sup> per pack (125 pcs)</p>		125 clips with clamping plate. 125 A4 screws for aluminum 1 spacer, 8 mm. 1 bit T15
2750	<p><b>Kebony RASK start/end clip</b> Hidden start-/end clip. to be combined with Kebony RASK clip, on wood and aluminum substructure*.</p> <p>Glass fiber reinforced polyamide two piece clip. Stainless steel screws A4 4.2 x 35 mm for wood substructure and 4.2 x 19 mm for aluminum substructure.</p> <p>Tool to dismantle the two clip pieces after installation.</p>		20 start/end clips 20 A4 screws for wood 20 A4 screws for aluminum 1 bit T20 1 tool

\* Note; alu substructure tested & released for these clips are from Karle & Rubner. Functional guarantee for other profiles to be made by manufacturer.
