KEBONY PRO PLUG SYSTEM

Product description

The Pro Plug system for Kebony is designed to hide screws and fasteners, providing a clean, seamless surface appearance for decking and other applications. It ensures that the screws are securely fastened while the plugs conceal them, maintaining the aesthetic appeal of the wood.

The PRO PLUG system for Kebony is produced and developed by Starborn Industries, Inc.

Installation is a four step process utilizing a predrilling tool, glue (sold separately), screw and plug.

All components must be used together as instructed to ensure proper function.

Advantages

- Very fast and accurate, 20 seconds per fastener
- Plugs made from actual Kebony face grain, so they perfectly match the surface
- For both Kebony Clear and Kebony Character
- Can be used for decking and facade
- Problem solver, hidden fixation in difficult places. Stairs, close to walls, skirting boards etc.
